

Devolution - Part 2

The Defense Intelligence Agency and the Defector

Patel Patriot

Jul 7 12 10 ...

This is part 2 of my ongoing Devolution series. If you haven't read [Part 1](#), please do so before continuing any further. If you'd like some daily chatter about devolution and many other topics from folks waiting for Trump to come back, join us here <https://t.me/patelpatriotchat>

The Defense Intelligence Agency

The Defense Intelligence Agency (DIA) is the intelligence branch of the United States Military. Their mission is to "Provide intelligence on foreign militaries to prevent & decisively win wars." The director is "a principal adviser to the Secretary of Defense." They typically serve 3-year terms. The current director, Lieutenant General Scott D. Berrier, was appointed by DJT and confirmed by the Senate on July 30th, 2020. The DIA is similar to the CIA, but note this crucial distinction between the two agencies:

What is the difference between the Defense Intelligence Agency and the Central Intelligence Agency? DIA and CIA are both members of the IC. However, while the CIA is focused on providing intelligence to the President and his Cabinet, we in the DIA are the principal source of foreign intelligence to combat related missions.

The CIA primarily provides intelligence to the president and his cabinet and the DIA provides intelligence for **COMBAT RELATED MISSIONS**.

Conflicting Reports

Jennifer Van Laar of Redstate published the first of 5 articles about the Chinese Defector on June 4th. I will be discussing information from the first 3.

[RedState Story 1](#)

[RedState Story 2](#)

[RedState Story 3](#)

According to the reporting, Vice Minister Dong Jingwei of the Ministry of State Security (MSS) defected from China to the United States on Feb 10th, of 2021. Dong was previously the chief of counterintelligence for the MSS. If true, Mr. Jingwei would be the highest-level Chinese defector in history. It would be as if General Flynn when he was the Director of the DIA, defected to China with all of our military intelligence secrets.

The CCP has claimed that Dong is still in China. They released a picture of him from a meeting that supposedly took place on June 24th.

Although the free world can undoubtedly trust China (sarcasm), I have my doubts that they're telling the truth in this matter. India has claimed that there was no representation from China at that specific meeting.

Besides Doval and Yusuf, the meeting was attended by Asset Issekeshev of Kazakhstan, Marat Imankulov of the Kyrgyz Republic, Nikolai Patrushev of Russia, Nasrullo Mahmudzoda of Tajikistan, Bobur Usmanov of Uzbekistan, and Regional Anti Terrorism Structure (RATS) Director Jumakhon Giyosov. **However, there was no representation from China in the meeting.**

Some claim the photo is photoshopped. I believe it is a real picture, just not from the the meeting China claims. Instead, I think we are looking at a photograph taken during a forum in 2020.

The carpeting and chairs appear to be the same, but there is very little information online about this particular forum, and this is the only picture I could find that prove it happened. China's effort to dispel the rumors of Dong's defection have fallen short. China could interview him live on camera and “save face”. Instead, we have a questionable photo and nothing else. Regardless, as this article says:

“The CCP has never admitted any defection of its MSS officers,” Dr. Han Lianchao, a former Chinese foreign ministry official who defected after the 1989 Tiananmen Square massacre, told *SpyTalk* in an email on Monday.

Shortly after the picture was released by China, the Biden administration came out saying the reports of Dong’s defection were not true.

But on Tuesday a U.S. official reached out to say reports of Dong’s defection were not true. Speaking strictly on terms of anonymity, the official declined to elaborate further, including on Dong’s present whereabouts, only hinting that the counterspy remains in China.

“We can’t confirm or deny where he is exactly,” the official said. Asked why the Biden administration was reaching out to knock down rumors of a high level defection—normally an ultra-sensitive issue—the official said, “that’s more of a policy question” and referred *SpyTalk* to the White House. A spokesperson for the National Security Council did not respond to a request for comment.

“We can’t confirm or deny where he is exactly” but the response was “Definitive, a closed issue”... “game, set, match”. In other words “we have no idea where he is but China told us to say we don’t have him”.

The Biden Administration

Some of the information Dong reportedly brought with him was proof that Covid-19 was a bioweapon that was intentionally released. Think about the change in narrative that has occurred on Covid-19. Why isn’t our savior Dr. Fauci being rammed down our throats via the lame-stream media? He’s been virtually blacklisted and his ties to the Wuhan lab exposed. We weren’t allowed to discuss the possibility of a lab leak until recently. The FBI even received intelligence previously from Dr. Li-Meng Yan showing connections to the Wuhan Lab. She was ignored and the possibility of a lab leak decried as a conspiracy theory. Why would they now change their story?

Why on May 27th did Biden order the intelligence community to look into the origin of covid-19? As the article said, the Biden administration “this spring shut down a state department investigation into whether the virus could have leaked from a Wuhan lab, deeming the probe an ineffective use of resources.” Trump started the state department investigation. Biden terminated it. Now he backtracks and has the IC looking into the origin again?

It was as if somebody who knew the facts was pressuring them to correct the story— corroborating reports that the DIA has challenged the FBI and CIA with information received from Dong.

It's only in the last three to four weeks that anyone outside DIA knew about the defector, according to RedState's sources. Prior to that time, DIA was vetting the information provided and confronting Langley officials with what they'd learned without divulging the source.

In March, Secretary of State Anthony Blinken met with his Chinese counterparts in Alaska. This meeting took place one month after Dong Jingwei reportedly defected. The talks were hostile. Here is the Transcript of the US-China opening remarks. What everybody has missed about these "hostile" public remarks is the actual cause of them. Publicly China told the United States to stay out of China's "Internal affairs." Privately, The CCP demanded that the US hand over Dong.

RedState's sources say that Chinese officials did demand that the United States return Dong, but Blinken didn't exactly refuse, at that time Blinken wasn't aware that Dong was with the US government, the sources say, and told China that the US didn't have Dong.

“Blinken wasn't aware that Dong was with the US Government”. The DIA has had Dong since February and nobody outside of the DIA knew about it. That includes “President” Biden, the so-called commander-in-chief of the United States armed forces. How is it possible that the United States President was unaware of the highest level defector in history ? Maybe this is why.

RedState's sources say that's partially true. FBI Director Christopher Wray was “ambushed” with the information, they say, and Langley was also unaware. Sources say DIA leadership kept the defector within their Clandestine Services network to prevent Langley and the State Department from accessing the person, whose existence was kept from other agencies because DIA leadership believes there are Chinese spies or sources inside the FBI, CIA, and several other federal agencies.

DIA and Devolution

DIA leadership (Trump appointed Lt. Gen Berrier) believes there are “Chinese spies or sources inside the FBI, CIA, and several other federal agencies.” He has proof. The defector brought “terabytes” of data with him. Included in that data is the “names of Chinese Spies working in the US” and “Names of US Citizens who provide intel to China” as well as Hunter “(and Joe's) business dealings with Chinese entities.”

In addition, Dong has provided DIA with the following information:

- Early pathogenic studies of the virus we now know as SARS-CoV-2
- Models of predicted COVID-19 spread and damage to the US and the world
- Financial records detailing which exact organizations and governments funded the research on SARS-CoV-2 and other biological warfare research
- Names of US citizens who provide intel to China
- Names of Chinese spies working in the US or attending US universities
- Financial records showing US businessmen and public officials who've received money from the Chinese government
- Details of meetings US government officials had (perhaps unwittingly) with Chinese spies and members of Russia's SVR
- How the Chinese government gained access to a CIA communications system, leading to the death of dozens of Chinese people who were working with the CIA

Dong also has provided DIA with copies of the contents of the hard drive on Hunter Biden's laptop, showing the information the Chinese government has about Hunter's pornography problem and about his (and Joe's) business dealings with Chinese entities. Some of the files on Dong has provided shine a light on just how it was that the sale of Henniges Automotive (and their stealth technology) to Chinese military manufacturer AVIC Auto was approved.

The implications here are MASSIVE. The DIA (the principal source of intelligence for COMBAT RELATED MISSIONS) kept the defector a secret because the President was implicated by the information the defector provided.

Here is another nugget from Dr. Han Lianchao.

Dong "was last seen in public in September 2020," Han told *SpyTalk* last week. Dong's photos have been deleted by the Chinese search engine Baidu, according to some Chinese-language news reports abroad.

Is it possible he has been here since long before February? I believe Trump had a role in this, and the defector provided information that helped prove the election theft. **Why would a Chinese defector come to the United States in February with information implicating President Biden, knowing there are CCP spies everywhere?** He would be sent back or disappeared. He either came before Biden took office, and the military has kept his presence quiet, OR he came in February as reported, knowing for certain the military would protect him by not telling the Biden administration. Both scenarios point to **Devolution**.

Final thought

Again, according to sources, Dong told DIA debriefers that at least a third of Chinese students attending US universities are PLA assets or part of the Thousand Talents Plan and that many of the students are here under pseudonyms. One reason for using pseudonyms is that many of these students are the children of high-ranking military and party leaders.

I did a quick google search for how many Chinese students attend US universities.

Colleges and universities in the United States are still a popular study destination for Chinese students, with over 372 thousand choosing to take courses there in the 2019/20 academic year.

That means at minimum, China has 124,000 college aged assets scattered across our country. They have way more than just college aged assets here. China has an army within our borders. They have infiltrated and compromised nearly everything. That is why it is taking so long for Trump to make his reveal. That is why there has been an insane level of military spy aircrafts over the United States (Monkey Werx). Trump and the military are trying to neutralize as much of the threat as possible to minimize the fallout. Our enemy will fight tooth and nail to hold on to their power, but Trump and our military are preparing to deliver a death blow and they have the help of defector Dong Jingwei.

Devolution is Real.

The best is yet to come

End

YOUR difference between the CIA and DIA is faulty at best, misleading at worst. The DIA is Military Intelligence, the CIA is Foreign intelligence. DIA is not strictly "combat mission" in scope.

>>>Defense Intelligence Agency (DIA) is >>a<< Department of Defense (DOD) combat support agency. We produce, analyze, and disseminate military intelligence information to combat >>and non-combat military missions<<. We serve as the Nation's primary manager and producer of foreign military intelligence and are a {{{{{{central intelligence producer and manager for the Secretary of Defense, the Joint Chiefs of Staff (JCS), and the Unified Combatant Command.}}}}}}
