The UN, EU and private banks are working together to undermine migration laws. The goal is to facilitate the influx of "refugees" in to former white countries.

This report exposes the relationships existing between several judges of the European Court of Human Rights and NGOs that are active before this Court. It analyzes the various problems that these connections cause, and seeks solutions.

<https://eclj.org/ngos-and-the-judges-of-the-echr?lng=en>

The refusal of the judges to withdraw is a shameful professional failure, which shows that Europe's highest human rights body is not in fact independent, but is part of a true "human rights industry" - a pyramid of money and a tight network of professional relationships, at the top of which sits George Soros with his billions. NGOs are supposed to represent "civil society," which is independent of states; in reality, a very large number of them involve the creation of actors without democratic legitimacy, such as the Open Society Foundation.

The criminal Swedish Zionist Jew Raoul Wallenberg didn't give a shit about anyone until his scumbag ass heard in 1944 that Jews in Hungary were giving all their money and gold to get out of the country.
